

WILDLIFE WEEK CELEBRATIONS

Theme: "Partnerships for Wildlife Conservation"

**Organized by
Department of Zoology**

About Wildlife Week:

Wildlife week is celebrated every year in India during first week of October. The theme of the campaign is to promote the conservation of fauna. Wildlife week was conceptualized in 1952 with the overall goal of raising awareness to serve the long-term goal of safeguarding the lives of wild through critical action

About the Department:

The Department of Zoology, Avinashilingam Institute for Home Science and Higher Education for Women, was established in the year 1957 with the aim of nurturing the young minds towards the conservation of an ecosystem with the mutualistic relationship of fauna and flora. Since the Department geared up the zeal among the students to celebrate wildlife week every year, various competitions imparting the sustainability of wildlife have been conducted and students are honored with prizes. The activities of wildlife week encourage and provoke the individual responsibility of students to protect the nature and create optimistic vibes to join hands for the conservation of wildlife.
