DATA SCIENCE AND ANALYTICS CLUB

About the club

- The DSA Club focuses on promoting education and discussion about Data Science and Analytics.

- Our Club creates and leads to a perfect path to success in the Data Science industry.

Objectives

- Provides Hands-on skills and expert guidance to help students develop into world class professionals in this field.

- Also create career opportunities for students through its International certifications and on campus/virtual club activities.

Vision

To provide a platform to the students to learn, shape and network, bringing them together with experts and researchers and allowing them to engage in hands-on, data science interdisciplinary projects.

Mission

To make all the members of the club to get well known about Data Science and Analytics and explore to it and ensuring that everyone receives a fulfilling knowledge about Data Science and Analytics.

Activities

- Invited talks to be focused on Data
Science and Analytics.

- Release of newsletter

- Self learning mentorship by
ADRA Product Studio.

- Skill training programs.

- Motivating and Encouraging students
in various competitions like Proximity,
Data by Dual and Elocution.
