REPORT ON ENDNOTE WORKSHOP

Workshop on Endnote training was held on 5th November 2022, held from 03:00 to 04:30 pm in the gallery of Science block. The resource person invited was Mrs. J. Geetha, Information Scientist, Library, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore.

The research scholars of various departments of school of Biosciences participated in the workshop. The event began with the prayer song sung by Akshaya N, I M.Sc., Zoology.

The speaker was introduced by Amrisa Pavithra E, Research Scholar, Department of Zoology. Then R. Harinivashini, Research scholar of department of Chemistry gave a brief introduction about EndNote referencing software.

The speaker, Mrs. J. Geetha has given an elaborate demonstration on EndNote, the referencing software. She in her deliberations stated that EndNote is a citation management tool used by researchers, faculty, and students to **store, organize and cite references. EndNote Basic is available for free to everyone.** EndNote will format citations and bibliographies into a nominated style. Styles can include footnotes and numbering. There are several ways to add a reference to a library: manually, or by exporting, importing, copying from another EndNote library, or connecting from EndNote. Most bibliographic databases allow users to export references to their EndNote libraries. This enables the user to select multiple citations and saves the user from manually entering the citation information and the abstracts. Some databases (e.g., PubMed) requires the user to select citations, select a specific format, and save them as .txt files. The user can then import the citations into the EndNote software. It is also possible to

search library catalogs and free databases, such as PubMed, from within the EndNote software program itself. She also said that EndNote can automatically format the citation into any of over 2,000 different styles the user chooses. Her demonstration was precise and informative.

The vote of thanks was delivered by Dr. K.S. Santhy, Professor of Zoology, Deputy Dean, School of Biosciences. She thanked the speaker who enlightened the scholars with her expertise, and thanked our Honorable Chancellor Prof. S.P.Thyagarajan, Vice-Chancellor, Dr. V. Bharathi Harisankar and Registrar, Dr. S. Kowsalya for their constant encouragement in promoting research in the institution and thanked the staff members and research scholars for their interactive participation.

The convenor of the programme was Dr. P. Lalitha, Director (i/c), Research & Development cell and Dr. K.S. Santhy, Professor of Zoology and Deputy Dean, School of Biosciences facilitated the workshop for School of Biosciences.

All the participated scholars gave positive feedback about the workshop. They felt that this software will be highly beneficial for them in preparing and submitting their research articles and thesis. Also, they were able to follow up the demo both in online and word plugin as it was user-friendly.

Once you have the PDF, you can easily export it to EndNote. Get started in two minutes and find out why over 200,000 researchers, librarians and academic professionals are already using EndNote Click. Find out more and try it for yourself.
