Department of Zoology
Demonstration of Apiculture Unit
8th February, 2023

The Department of Zoology organized a “Demonstration of Apiculture Unit” on 08.02.2023 when Mr.BabuKannaiyan, Field Specialist in Apiculture, Tamil Nadu Agricultural University, Coimbatore detailed the behavioral and breeding techniques of the different types of honey bees through Lecture cum demonstration. The aim of the proposed activity was

- To develop entrepreneurial skills among student community.
- To acquire knowledge on food and medicinal value of honey and other hive products.
- To learn the role of honey bees in cross pollination, increasing the yield of crops and forest conservation.

The Under graduate, Post graduate and research scholars of the Department Zoology eagerly participated with enthusiasm and interaction. The expert clarified the doubts raised by the students. The method of using accessories and tools of apiculture were demonstrated. There is no doubt that the demonstration will provide skill development and employment opportunities among student community.
