About the Workshop

The workshop aims to provide participants with an understanding of various bookbinding methods and their applications in library preservation. Through hands-on experience in basic binding and repair techniques, participants will gain the skills necessary to restore and protect books effectively. Additionally, the workshop will raise awareness about the importance of sustainable and durable binding practices, contributing to the long-term preservation of valuable library collections.

About the Department

The Department is well-equipped with infrastructure, there is also an in-house printing unit with a pre-press section, mini offset and post press machines and the University Press. The Department is equipped with Packaging Laboratory with ESKO software which is used to support and manage the creative packaging design. Department has strong association with Industries all over India and through this linkage.

About the Library

The Central Library, located at the heart of the campus and spanning 19,765 sq. ft., features a centrally air-conditioned reading hall with seating for 450 users. Fully automated with KOHA and custom-developed software, it offers seamless access to an extensive collection of print and electronic resources. As a proud member of ONOS, the library provides 24/7 remote access to its digital resources. To support academic and research needs, the library offers tools for grammar checking and plagiarism detection. Designed to be inclusive, it is equipped with ramps, wheelchairs, assistive technologies, multimedia systems, and Braille books. Security and safety are ensured through CCTV surveillance and advanced fire safety systems.

- Registration is free
- Since the seats are limited, kindly rush your registration
- Participants shall be provided with binding materials
- Working lunch & refreshments will be provided
- Certificates (Hardcopy) will be given to all the participants
